

STEVE JACKSON GAMES SHELF TALKERS

These shelf talkers will let you dress up your store with a bit of personalized *Munchkin* madness!

Use the “word balloon” versions to announce sales, highlight new arrivals, or whatever else you think of.

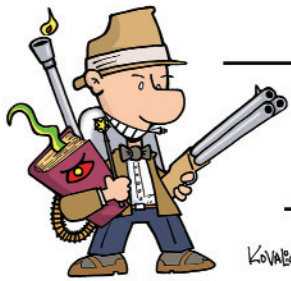

The “recommendation” versions let your staff review their favorite games, and put that review right in front of your customer.

Just print the appropriate page, trim out the talker you’re using, fill in the blanks, and tape the flap to the shelf, beneath the product.

Thanks!
